  - The road between Anata and Al 'Eizariya (Road 70) is in the final construction stage to allow Palestinians to enter and exit Al 'Eizariya without using the entrance lane near Al Za'ayim checkpoint. Another road (Road 80) is planned that will link Abu Dis to Road 1 east of the planned Barrier around Ma'ale Adummim. Sufa has been the principal alternative commercial crossing following the closure of Karni crossing in mid-June.
- Kerem Shalom crossing was open on six days this week for the entry of commercial and humanitarian goods. On 20, 23, 24 and 25 December, the crossing was open for the export of flowers. Since 18 December, and for the second time this month, the Palestinian strawberries association has blocked all exports of strawberries to protest against the limited amounts Israel has allowed them to export through the crossing (the first strike was between 7 and 11 December). During the closure of Sufa between 28 October and 22 December, Kerem Shalom was effectively the only crossing allowing the entry of commercial and humanitarian goods into Gaza.
- Nahal Oz energy pipelines were open on six scheduled operating days.
- Gaza fishermen continue to be permitted to fish up to six nautical miles off the coastline.

## Ongoing incidents:

- Following Israel's unilateral disengagement from the Gaza Strip in September 2005, the IDF announced that Palestinians should keep a distance of at least 150 metres from the perimeter fence along the eastern and northern borders of the Gaza Strip.
- On 28 December 2005, the IDF declared the former northern settlement bloc to be a "no-go" zone. Entry into the area for the 250 Palestinian residents and international organisations requires prior coordination with the IDF. Since 17 May, IDF presence in this area has been enforcing this ban.
- **17 May to date:** Palestinian farmers have been unable to reach their farms in the areas east and north of Beit Hanun and north and northwest of Beit Lahiya due to ongoing IDF military activities. Palestinian farmers have also been unable to reach farms located east of Al Bureij Camp and east of Khan Younis due to intermittent military operations by the IDF.
